From the *1817-1917 Centennial Book*

“At the annual meeting of the Samuel Bissell Memorial Library Association, February 22, 1913, it was decided to undertake the publication of A History of Twinsburg, to be issued in connection with the Centennial to be held in 1917. It was never expected that the task would be unattended with difficulties. Many perplexing problems have presented themselves, some of which are as yet unsolved. ***The willingness of both former and present citizens to assist financially, and also in furnishing necessary data***, has been greater than it seemed wise to hope. ”

May we be as willing and forthcoming as our predecessors
